SECTION1: INTRODUCTION TO CLOUD COMPUTING

- **What is Cloud?**
- **Cloud Service Models:**
  - **IAAS (Infrastructure As A Service)**
  - **PAAS (Platform As A Service)**
  - **SAAS (Software As A Service)**
- **Cloud Deployment Models:**
  - **Private Cloud**
  - **Public Cloud**
  - **Hybrid Cloud**

SECTION2: INTRODUCTION TO AMAZON WEB SERVICES

- **What is AWS?**
- **AWS Global Infrastructure & Components**
- **Regions, Availability Zones and Endpoints**
- **How to Subscribe for AWS account**
- **What are the AWS Free Tier Limits and Usage?**
- **Pillars of the AWS Well-Architected Framework**
- **AWS Certification paths**
- **Navigate AWS Console**
- **List of services given by AWS**

SECTION3: AMAZON EC2

- **What is EC2?**
- **Instance Types**
- **Instance lifecycle**
- **Security groups**
- **IP Addressing**
- **Assigning Elastic IP**
- **Security from Key pairs**
- **Pricing Model in EC2 Instances**
- **Understanding Reserved Instances**
- **Building Linux and Windows Instances**
- **Connecting Instances from Different Platforms**
- **Network Interfaces**
- **EIP**
- **EC2 Troubleshooting Scenarios**

SECTION4: AMAZON MACHINE IMAGES (AMI)

- **What is AMI?**
- **Managing AMI's**
- **Working with Linux and Windows AMI's**
- **Shared and Paid AMI's**
- **Web Server Configuration**
- **Creating own AMI's**
- **Making an AMI Public**
- **AMI Market place**
- **What is Virtualization?**

SECTION5: AWS COMMAND LINE (AWS CLI)
- **Introduction to AWS CLI?**
- **Useful features in AWS CLI**
- **Prerequisites for CLI**
- **Installing AWS CLI on Windows and Linux**
- **Generating Access Keys and Secret Key**
- **Configuring AWS CLI**
- **Running Commands**

SECTION6: IDENTITY ACCESS MANAGEMENT (IAM)
- **IAM initial setup and configuration**
- **What is a policy?**
- **Policies creation**
- **IAM Roles**
- **IAM Groups and Policies**
- **User and Group settings**
- **What is MFA**
- **How to configure MFA**
- **Cross account access**

SECTION7: CLOUD TRAIL
- **What is cloud Trail**
- **Tracking User Activity**
- **Benefits**
- **Trails**

SECTION8: AMAZON SQS
- **What is SQS?**
- **SQS benefits**
- **Types of messages**
- **Standard vs fifo**

SECTION9: SIMPLE NOTIFICATION SERVICE (SNS)
- **What is SNS?**
- **SNS Topics**
- **Subscriptions**
- **Subscribing topic via email**
- **Setting notification for EC2 instance changes**

SECTION10: CLOUD WATCH
- **Introducing cloud watch**
- **dashboards**
- **Cloud watch Architecture**
- **Monitoring the AWS service health dashboard**
- **Monitoring the cloud watch**
- **Getting statistics for a specific EC2 instance**
- **Setting up notifications**

SECTION11: NETWORKING BASICS
- **What is network?**
- **Network topologies**
- **OSI reference models**
- **Ipaddresses and classes**
- **Difference between private and public ipaddress**
- **Description of Subnet, gateway, router…etc**
- **Different networking components**
- **Router, Gateway**
- **Subnets, CIDR**

SECTION12: VIRTUAL PRIVATE CLOUD (VPC)
- **What is Amazon VPC?**
- **VPC Essentials**
- **Default and Non-Default VPC**
- **VPC networking and ACL**
- **Security Groups**
- **Route Tables public and private**
- **DNS and DHCP options set**
- **VPC Peering and end points**
- **Subnets**
- **Subnet Routing**
- **VPC Internet Gateway**
- **Elastic IP addresses and network interfaces**
- **Extending on-premise networks with VPC**
- **VPC integration with other services**
- **Creating NAT Instance**
- **Configuring web application in VPC**
- **Trouble shooting scenarios**
- **Network monitoring with flow logs**
- **Endpoints**
- **DNS hostnames**
- **VPC Peering**

SECTION13: NETWORK & SECURITY
- **Security Groups**
- **ACLS**
- **Elastic IPs**
- **Placement Groups**
- **Key Pairs**
- **Network Interfaces**
- **Secure VPN Connection**
- **Site to site VPN connection**
- **Tunneling**
- **Transit gateways**
- **Traffic mirroring**
- **VPC Trouble shooting**

SECTION14: AMAZON ROUTE 53
- **What is DNS?**
- **What is Hosted Zone and Record sets**
- **Route53 as your DNS service**
- **Route53 basics**
- **Domain Registration**
- **ELB Address Record**
- **Different types of routing policies**
- **Route53 and DNS failover for S3 bucket**
- **Health Checks**

SECTION15: EC2 INSTANCE STORE & EBS
- **What is Instance Store?**
- **How to launch instance with instance store volume**
- **What is EBS?**
- **EBS Performance**
- **Difference between instance store and EBS**
- **Features of Amazon EBS**
- **Amazon EBS Volumes**
- **EBS Ephemeral**
- **Managing EBS Volumes**
- **Creating and Deleting EBS Volumes**
- **Attaching and Detaching EBS Volumes**
- **Increasing EBS Volumes**
- **Amazon EBS Snapshots**
- **Automatic snapshots**
- **EBS Lifecycle**
- **Lifecycle Manager**

SECTION16: SIMPLE STORAGE SERVICE (S3)
- **What is object storage?**
- **What is bucket?**
- **Storage classes**
- **Creating and deleting buckets**
- **Getting an object**
- **Static website hosting with S3**
- **Uses of s3 storage**
- **S3 IAM and Bucket policies**
- **Working with permissions of S3**
- **Object versioning**
- **Object lifecycle**
- **Bucket cross Region**

SECTION17: GLACIER STORAGE
- **Introduction to glacier**
- **What are vaults**
- **Creating a glacier vault**
- **Storing archives in vaults**

SECTION18: AMAZON EFS

- **What is Elastic File System?**
- **What is NFS?**
- **How to configure in different AZ's**
- **Mounting Amazon EC2 Instances**
- **Difference between EBS and EFS**
- **Understanding Block storage and Object storage**
- **Understanding file storage and Block storage**

SECTION19: SNOWBALL, SNOWBALL EDGE, SNOW MOBILE

- **Data Migration & Transfer**
- **What is snowball**
- **How device difference**
- **Use cases**
- **Benefits**
- **Use Case Differences**
- **Storage Capacity**

SECTION20: RELATIONAL DATABASE SERVICE (RDS)

- **What is RDS?**
- **Working with the RDS**
- **Deploying database Engine**
- **RDS security Groups and Connecting to RDS from EC2**
- **Subnet Groups**
- **Group Parameters**
- **MySQL, PostgreSQL, Aurora and Maria DB on RDS**
- **Multi AZ's**
- **RDS Backups**
- **Snapshots**
- **Read Replicas**

SECTION21: AMAZON DYNAMO DB

- **What is NoSQL?**
- **Creating tables**
- **views**
- **Getting started with Dynamo DB**
- **Local and Global Secondary Indexes**
- **Dynamo DB overview and Limits**
- **Provisioned Throughput**
- **Backups**

SECTION22: AMAZON ELASTIC CACHE

- **Overview**
- **Types of caches**
- **Types of nodes**
- **Mem cache**
- **Redis**

SECTION23: ELASTIC LOAD BALANCING (ELB)

- **What is ELB?**
- **Creating a load Balancer**
- **Load balancer Types**
- **What is Classic and Application ELB**
- **Network Load Balancer**
- **Internal and External load balancer**
- **Load balancing protocols**
- **Health check for the load balancer**
- **Adding multiple instances to the load balancer**
- **ELB with Scaling**
- **Cross zone Load balancing**

SECTION24: AUTO SCALING

- **What is Auto Scaling?**
- **Auto Scaling Components**
- **CloudWatch metrics**
- **Benefits of Auto scaling**
- **Auto Scaling Use cases**
- **Creation of launch Configuration**

SECTION25: LIGHTSAIL

- **What is Lightsail?**
- **Manage instances**
- **Virtual private servers with LightSail**
- **Deploying LAMP stack**
- **Deploying other applications**
- **Connecting instances**

SECTION26: LAMBDA

- **What is a serverless?**
- **What is LABMDA?**
- **Serverless in aws**
- **Traditional vs serverless**
- **Which services do we need?**
- **Create function**
- **What Lambda supported languages**

SECTION27: AMAZON CLOUD FORMATION

- **What is code as Service**
- **CloudFormation components**
- **Cloud Formation Essentials**
- **Building AWS Infrastructure as a code**
- **Building an S3 bucket with cloud formation**
- **Deploying aws resources**
- **Deploying a website S3 bucket Configuration**
- **Deploying VPC**

SECTION28: ELASTIC BEANSTALK

- **Elastic Beanstalk Essentials**
- **Getting started with EB.**
- **Deploy, manage, scale an application**
- **Work flow of Elastic Bean Stalk**
- **Components and usage**
- **Create Application**
- **Launch Environment**
- **Manage Environment**
- **Creating application source bundle**

SECTION29: SYSTEMS MANAGER

- **What is systems manager**
- **Resource Groups**
- **Automation**
- **Managed instances**
- **State manager**
- **Patch Manager**
- **Session Manager**

SECTION 30: TERRAFORM:

- **Introduction To Infrastructure as Code**
- **Terraform Basics**
- **Working with Terraform**
- **Terraform With AWS**
- **Read, Generate, Modify Configurations**
- **Terraform Provisioners**
- **Terraform Modules**
- **Terraform Functions**
- **Conditional Expressions**
- **Remote State Management**
- **Deploying Infrastructure**
- **Advanced Terraform Usage**

SECTION31: ROLES & RESPONSIBILITES

SECTION32: RESUME PREPARATION

TRAINER: **Mr. R. N. RAJU (Senior Cloud Engineer)**
(Red Hat Certified & Sr Cloud Consultant)
